ARE REPORTED ON ROCKS

Berlin, Dec. 28.—The correspondent at the Gallipoli front of the Lokal Anzeiger, continuing his account of an inspection of the deserted positions of the allies, says he saw four stranded British transports at Suvla Bay. Supply depots cut from the rock were filled to the ceiling with enormous quantities of provisions and equipment. During this inspection a British cruiser came up close to shore and opened a bombardment but did no damage.

"Many dead soldiers lie buried on the ground," he continued. "Every day more ammunition is taken from the water into which it was thrown by the British. The Turkish soldiers are counting the booty."

"Lieut. Col. Joseph Greenwood, aged 39, contracted smallpox while in the office of the Horse Guards at Whitehall, London.

INQUIRY BEGUN
INTO CAUSE OF
GASOLINE JUMP

Washington, Dec. 28.—Preliminary estimates of the geological survey on the production of crude petroleum in 1915 which are to be used in connection with the federal inquiry into the cause of advancing gasoline prices were made public today by Secretary Lane and indicate an increase of about two million barrels over last year's output which, with a total production of about 290,000,000 barrels, was a record breaker.

"The present year began with a surplus of petroleum in stock," said the report, "so that production of crude oil was thus greatly added to."

"The supply in the United States is not unlimited but the decline in the country's output of crude oil has not yet set in. The increase in stocks is in itself conclusive."

A masquerade dance was given last evening to the members of the Tennis club, at the Brooklawn Country club casino by Miss Phyllis Tomlinson, of 442 Norman street. Supper was served in the club house. Preceding the dance, Miss Sally Wilmet and Miss Bethesda Hamilton gave dinner parties at their homes.

The Barn Club House at 591 Myrtle avenue, whose membership is composed of some of the brightest boys and girls of that section of the city have issued artistically decorated invitations to a Christmas tree which read: "Christmas Tree activities and target practice at eight o'clock, Thursday evening, December thirtieth, nineteen hundred fifteen, at the Barn Club House, 591 Myrtle avenue. You are cordially invited to attend and shoot for your share and to help laugh away all the care of 1915."

200,000 TO GET
INCREASED PAY
NEW YEAR'S DAY

New York, Dec. 28.—Wages of 200,000 employees in various trades in this city will be increased beginning January 1, it was estimated today. The increase is expected to aggregate millions of dollars. Thousands of workers on street, subway and elevated railroads are included among those who will profit by advances.

The United Board of Business Agents for the building trade unions announces that the wages of more than 8,000 machinists, the layers and others already have been increased. Increases beginning Jan. 1 are demanded by many other unions and range from 25 cents to 50 cents a day. Increases in pay have been granted to 12,000 girls in the millinery trade, 3,000 waiters and to 1,200 mechanics in the New York Navy Yard. Employers say they do not remember a time when more labor organizations asked larger pay than at present nor when so many were obtaining it.

An order for 2,000 freight cars was awarded the Canadian Car & Foundry Co., by the French Government.

Resinol Soap
makes good complexions

When you wash your face do you realize that it is not enough to remove the dirt—that your skin needs a soothing, healing influence to preserve the natural beauty of your complexion? Ordinary toilet soaps do not assert this influence. Many of them contain free alkali, which tends to dry the skin and destroy its delicate texture. Even the best of such soaps can only clean, they cannot heal and protect the skin. Resinol Soap, besides being an absolutely pure toilet soap, contains the

GIRL ROOMS IN
NIGHT, IS FOUND
DEAD FROM COLD

Greenwich, Dec. 28.—Despondency over recent ill health is thought to have been the cause of the death of Miss Margaret Curtis, beautiful 19-year-old daughter of Mrs. and Mr. Julian W. Curtis, of this place. Miss Curtis got up out of bed Tuesday night and, wandering out into the yard in the height of the storm, suffered exposure that probably caused her death. The real cause of death will not be determined until after an inquest is held today.

Miss Curtis retired, apparently in her usual good spirits, about 11:30 o'clock Tuesday night, and when relatives went to her room to call her yesterday morning she was missing. A search followed and her body was found about 300 feet from her home. She was fully dressed and indications were that she had been wandering about the premises some time before being overcome by the cold and freezing to death.

Efforts were made to keep the news of her death from the public, and reports were circulated this afternoon to the effect that she was still missing from home, it being at first thought that she had gone to the home of a friend.

Julian W. Curtis, who is vice president of the A. G. Spalding Sporting Goods Co. of New York, city, told reporters that his daughter had a habit of walking in her sleep, and that he was of the opinion that she wandered from the house fully dressed.

Dr. John A. Clark, city physician of Greenwich, was notified of the death yesterday afternoon, and owing to the condition of the girl's parents had to postpone the inquest until today. He would not give out a statement other than to say that Miss Curtis was probably was insane.

Miss Curtis returned to her home here last Thursday to spend the Christmas holidays with her parents. She was a student in the Cook Boarding school, Westbrook, Mass., and was popular in the younger social set of New York and Greenwich. Constable George T. Jones said yesterday afternoon that upon her return she was the recipient of invitations to several functions, and her mother forbade her attending them, owing to the condition of her health. This, he said, preyed upon her mind.
